

## Scientific Programme

In addition to the conventional themes covered by in the previous editions, the conference will host Forums and Workshops, which bring together key specialists within a common research or industrial project. Contributed papers are invited in all the areas of aeronautic, space sciences and engineering.

## Prizes

Two prizes will be awarded by a Jury to the **Best Paper** and the **Best Young Paper**.

## Papers

The Jury will select also the best papers to be considered for publication inside the AIDAA journal [www.aerotecnica.eu](http://www.aerotecnica.eu).

## Scope

The 2013 AIDAA Conference is the 22th in the conference series. It will bring together researchers and professionals working in the areas of aerospace sciences and engineering. The goal is to promote significant exchange of scientific information in the community. The emphasis of the conference will focus on the aerospace Italian community accordingly with the scenario of the actual economic crisis which can be faced only with emerging concepts, techniques and technologies.

## Special Sessions

These are solicited: interested researchers are pleased to communicate with the Organising Committee within next March 2013.
